## Ex. 5 - Deliberative

I did talk to Linda Lui and she is in full agreement w/our comments.

An updated version w/the requested edit is attached. I'll plan on sending later this am. Thanks.

This looks ok. Couple of points.

### Ex. 5 - Deliberative

if so let's say so in the transmittal note.

-did you give linda liu a heads up? Did she have any reaction?

I used to work alot with Christine, just change the the beginning of the note to:

Christine, its been a while since we talked, give me a call if you want to discuss further.

Attached is a memo from Don Brady to the EPA R10 Associate Director in the Office of Water and Wetland re: OPP comments related to R10's review of the adequacy of OR's CZARA program.

Mark Dyner has reviewed and approved. If Bill and Don approve, I will sign for Don tomorrow and send along w/the track version file of Mark's edits to R10. Comments are due tomorrow.

I have coordinated w/Jackie Mosby in FEAD and also spoken w/Linda Lui in EPA R10, informed her of our major concerns, and indicated that we will be sending comments by tomorrow.

Please let me know if there are any comments. Thanks everyone.

Based on Don's and Mark's emails, I agree that OPP should be sending comments to Region 10 and I support the summary messages listed in Mark's note.

I like Don's idea of giving the Region 10 staff an early, oral summary of what we are likely to write them.

Such written comments should come from a level commensurate with the Regional manager who is engaged – regional Division Director = OD; regional Branch Chief = OPP DD.

Ex. 6 - Personal Privacy

Ex. 6 - Personal Privacy

Finally, I think EFED should loop in FEAD (Mosby, Helfgott) so they know what is going on and to see if they can help.

Thanks,

Bill

I agree with Mark's comments. I think we need to send these comments. I am comfortable with them coming either from us or him. Anita, I think you shd call Linda Lu and give her an update on our concerns next week while we figure out logistics.

Bill Jordan, shd these comments come from Jack?

Hi – Hope you are doing well! This is to keep you in the loop so you know what EPA Region 10's Water Program is doing. I also asked Jenny Wu to talk to me for EPA's position on notifications prior to pesticide applications. Mark – I told Jenny Wu that the comments that she saw from you were preliminary and that you are still working on your comments.

Please let me know if you have any questions.

**Subject:** Last opportunity to review CZARA decision rationale document and the response to comments document by Nov. 7

Hi Everyone,

Thanks again for all the hard work on putting together the pesticides decision rationale and response to comments documents. It was a lot of meetings, tough issues, and a steep learning to curve on our different programs, so I appreciate your hard work and sticking with the project!

The complete (covering all of the issues) draft decision document and the complete draft response to comments document are attached. Between now and November 7<sup>th</sup>, upper managers (Christine Psyk's level) and attorneys from NOAA and EPA will be reviewing both documents and providing comments back to the CZARA core team. This is the same document that you've all looked at. (Linda, I still have to connect with you on your concerns with the notification in response to comments.) Still, this is one last opportunity for you to provide additional input. You are free to comment on any or all parts of both documents, not just the pesticides piece you worked on. We just need your comments by COB, November 7<sup>th</sup>. The CZARA core team will compile the comments and revise the documents as appropriate. Our goal is to achieve "pens down" status before Thanksgiving.

Work is also underway on the communication strategies and briefings for both agencies to set the stages for the final decision.

Again, thanks for all the work on this issue! If you have any questions, feel free to call me. - Jenny
